

## DICKINSON ELEVEN LOSES TO MIDDIES

Annapolis, October 18.—The Navy defeated the Dickinson eleven today 23 to 0. The visitors played a good defensive game throughout the first half, but the heavy line of the Middles finally told on them, and in the final half the Navy scored frequently. The first touchdown, and the only one before the third quarter, came in the first period, when Goldstein, the Dickinson captain, fumbled a kick near his own goal line. In the third period a series of line smashes played again put the ball over, but all attempts at forward passes or fake kick plays failed. Only on straight line bucks could the Middles gain at all. In the latter periods the backfield made large gains on plays through the line. Four touchdowns, two goals from touch-downs and one field goal made up the score.

## Local Gridiron Notes By "Prep."

Randolph-Macon College was the first team to score in the Richmond Light Infantry Blues this season. Driver and Bane were the big factors in scoring points.

When the scoring on the Blues started, it started by large numbers—23 to 0. Four touchdowns, two goals and a field goal. Not bad for the Yellow Jackets.

Hancock played a good game for the Blues, getting fourteen tackles during the contest.

Bane (Randolph-Macon) cannot keep the ground when he is running with the ball. Jumping is his strong point.

Richmond College and Randolph-Macon College will play at Broad Street Park next Saturday. The Richmond Blues and the Richmond College played to a no-score finish. Wonder what the score will be when the Yellow Jackets and the spiders start to sting each other?

Richmond Academy and McGuire's will clash at Broad Street Park next Saturday in a Prep School League championship game. They are looked to play a good game.

The Medical College of Virginia lost yesterday to Georgetown by the score of 21 to 0. With the men they have on their eleven, they should do a whole lot better than that. But it doesn't make any difference what kind of men they have, if they don't get practice team work is out of the question. Team work is the biggest part of a football game.

The Invincibles put it on the Tigers by a score of 14 to 0.

It is now up to the Invincibles to communicate with the Virginia eleven of Washington. Manager Oliveri of the Invincibles, was anxious to arrange a game with the Richmond Blues, but failed, and he expressed a desire to arrange a game with the winner of the first invincible game. Will the Invincibles accept?

The St. Andrews Christian Association eleven defeated the strong Forest Hill eleven by the one-sided score of 26 to 0 at Forest Hill yesterday. For the first half of the game both teams put up a good defense, but after that the Hill boys were not in it.

When a team gets whipped 116 to 0, like the Medical College of Virginia second team did, they had better practice more or disband. Hampden-Sidney ran away with the second Medical team, scoring forty-seven points in the first half and sixty-three points in the second.

The John Marshall High School and

## Its Work in the Skin A Marvel in Medicine

Boils, Pimples, Carbuncles, Blotches and All Blood Impurities Vanish.

Get Rid of Bad Manners—S. S. S.

Boils, like hard lock, often come in squads and make life just one misery after another. Now and then we see an old boil that has defied treatment year after year, like the following:—I had a sore on my face for twelve years. All the doctors declared there was no cure for it. One wanted to lance it, but I concluded to clean out my blood with S. S. S. and now I am completely well. Everybody that knows me is astonished at my cure," says John L. Ward, 1206 W. Broad St., Savannah, Ga.

People marvel at such results. The reason is just this:—There is one ingredient in S. S. S. the active purpose of which is to stimulate the system to the healthy selection of its own essential nutrient. And if from the presence of some disturbing poison there is a local or general interference of nutrition to cause Boils, Carbuncles, Abscesses and kindred troubles, S. S. S. so directs the local cells that this poison is rejected and eliminated from their presence.

Then, too, S. S. S. has such specific stimulation in these local cells as to preserve their mutual welfare and a proper relative assistance to each other. In a very brief time S. S. S. has the reconstructive process so under control that remarkable changes are observed. All eruptive places heal, cell disintegration ceases, and from head to foot there is a conspicuous sensation of renewed health.

From the fact that S. S. S. is purely a botanical preparation, it is accepted by the weakest stomach and has great tonic influence. Not one drop of drugs or minerals is used in its preparation. Get a bottle of S. S. S. at any Drug Store and note the wonderful results. But be careful not to fall a victim to the snares of the substitution dealers who always have some mineral stuff "labeled to be 'Just as good.'"

S. S. S. is prepared in the famous Laboratory of The Swift Specific Co., Atlanta, Ga.

For personal advice on special treatment for skin eruptions write them at 269 Swift Building.

## LUTHER BURBANK JOINS EUGENISTS

Experiments in Plant Life Convince Him That It Is Operative.

San Francisco, October 18.—Luther Burbank, the plant conjurer of Santa Rosa, Cal., has joined the ranks of eugenists. In an interview to-day Burbank announced his final conviction that the laws of artificial selection which he has found applicable to plant life, are also operative in human relationships. He affirmed his belief that acquired characteristics positive to be transmissible, and that each succeeding eugenic generation would implant in humanity new and better traits, with little tendency to reversion.

"Ten generations should be sufficient to fix in humanity any desired attribute of an ideal and survival value," said Burbank. "In plant cultivation, about six to ten generations are required to establish the desired structural and functional changes in the descendants. It would be interesting to observe what might be done if it were possible to select a dozen normal families and let them live and mate under ideal eugenic conditions. There is absolutely no doubt but that ten generations would be sufficient to firmly implant the better qualities and to weed out the inferior ones."

"In our modern complex society, through philanthropic, sanitary methods of living, charities and efficient means of combating pestilence, and plague, we are enabling the unfit to survive and propagate. As a result of this subnormality and degeneracy is increasing at an alarming rate. "Eugenics is the scientific answer to the pressing problem of keeping the race from deteriorating and injecting new strains of sanity, ideality and aspiration into human kind."

"Molding men toward a better species that is the greatest promise my forty years of experimenting holds out for the ways of plants are the ways of men."

**South Hill Tobacco Market.** (Special to The Times-Dispatch.) South Hill, Va., October 18.—The past week has been a record-breaker on the leaf tobacco market here, something over 600,000 pounds of the weed having been sold, at prices that were extremely gratifying to the producers of tobacco in this section.

The offerings the first of the week consisted of grades of tobacco of bacco, and fancy prices were secured for choice lots. The latter part of the week's offerings consisted of grades somewhat lower, all of which sold well.

The first days of the week the offering was so great that in almost every warehouse the night fell before the sales were more than half over, and the streets were crowded with wagons heavily loaded with tobacco.

**Chase City Tobacco Market.** (Special to The Times-Dispatch.) Chase City, Va., October 18.—The tobacco sales in this market for this week were very heavy, having reached

## TREAT INMATES JUST AS HUMANS

Julian Hawthorne Tells What Is Required in the Way of Prison Reform.

New York, October 18.—Julian Hawthorne, the author, who was released from the Federal prison in Atlanta on Thursday, commenting to-night on Governor Glynn's plans for the betterment of prison conditions in New York State, said that there never can be anything approaching model prison until inmates of penal institutions are treated as human beings.

"First," said Hawthorne, "the guards should be of higher type than those employed by the Federal government in Atlanta. The antiquated system now in vogue in many of the penal institutions is inhuman to drive men insane. The lock-step should be abolished; the honor system should be adopted in all prisons; the rule of silence should be abolished."

"Prisoners who have families should, in my opinion, be paid for their labor, and the money remitted at weekly or monthly intervals to those who have been deprived of his support. There is nothing which will turn the model prisoner into a desperate character so quickly as the worry over the fate of the loved ones whom he has left behind to depend upon the charity of an unfeeling world."

"And the policy of limiting a prisoner's privilege of writing letters is extremely cruel. I would suggest that most good might be accomplished by permitting the prisoner's relatives and friends to visit him more frequently."

Hawthorne believes that Thomas Mott Osborne's experience at Auburn will prove of great value in New York State in directing attention to the need of prison reform. He declared, however, that it is impossible for a voluntary prisoner, such as Mr. Osborne was, to ever gain the confidence of his fellow-convicts sufficiently to learn the real conditions inside the prison walls.

"I realize full well," continued Mr. Hawthorne, "that we cannot remove all restraint and permit men who are being confined as a punishment to do as they please. The burden can be made to feel that they are human. There are many men in the Atlanta prison dying of indigestion, and many more who are starving themselves to death simply because they cannot eat the food that is given to them."

Hawthorne declares that he will devote the remainder of his life to the work of prison reform. In this work, he said, he will be assisted by his friend, Dr. William J. Morton, who was sentenced with him to the Federal prison on the charge of using the mails to defraud in connection with the sale of mining stock.

## LIVES 47 DAYS ON WATER ONLY

Mrs. F. W. McCann Breaks the World's Record and Continues Her Fast.

Spokane, Wash., October 18.—Mrs. F. W. McCann, of Coulee City, has fasted forty-seven days, taking nothing but water, under the direction of Dr. A. T. Dodson, and is continuing the fast. She has announced that she has felt no pangs of hunger since the third day, and told of continuing the housework at the home of her parents, Mr. and Mrs. J. C. Higginbotham, E-2208 Mission Avenue, including canning more than 121 quarts of fruits and helping to care for her invalid mother.

"I have no records," said Dr. Dodson, "of any woman going this long, under the personal direction of a physician. Mrs. Eliza Hazard, of Seattle, is reported to have fasted forty-five days, and a Dr. Tuttle, of St. Paul, reports forty-five or forty-six days. There have been reports of persons going sixty-one days, but they show the persons to have lost track of the record. Any kind of nourishment except water breaks the fast. I think that Mrs. McCann has broken the world's record, at least so far as a woman is concerned, in making the fast."

When seen Mrs. McCann appeared in much better condition than she did a couple of weeks ago, and had a healthier color.

"I have felt weak on several occasions," said Mrs. McCann, "but am feeling good to-day, and have for several days. I have taken nothing but water since I started the fast, but drink from eight to ten glasses of this daily."

Mrs. McCann weighed 145 just before starting the fast, and while she has not been weighed for a couple of weeks, she expressed the belief that she is now down to about 100 pounds. She believes this will improve her health and remove a tropical condition which previously existed.

**Chase City Tobacco Market.** (Special to The Times-Dispatch.) Chase City, Va., October 18.—The tobacco sales in this market for this week were very heavy, having reached

Here It Is!

A fine, smooth, mellow, satisfying whiskey, with the rich, full-bodied flavor and the delightful, aromatic bouquet that can come only from the choicest materials, honest distilling and thorough aging in the wood.

## CREAM OF KENTUCKY "THEE" WHISKEY

is the best your money will buy. It is a source of strength to the weak—a blood maker and health builder—tones up the system against sudden attacks of cold, pneumonia and grippe; in a word, "Thee" Whiskey for the home. There is no tonic equal to good, pure, sound whiskey, and there is nothing worse for you than poor, adulterated whiskey.

Stop taking chances. Get "THEE" WHISKEY. One taste of it will show its quality, and you can take that taste at our risk. Order today from any of the dealers named below. When you get the whiskey try it and if you do not say it is all we claim for it send it straight back and get your money.

That is the guarantee on which every bottle is sold. Every one of our dealers understands it. We stand right back of them all the time.

You may think the whiskey you are using is "all right," but until you have tried CREAM OF KENTUCKY you cannot really know how fine it is.

a total of 500,000 pounds, which averaged around \$10 as against 350,000 pounds sold last week, yielding an average of \$10 to \$20.

All grades are holding up in price, and only a few small lots which were received in bad order were below the average.

Never before have the farmers seemed so well satisfied with prices, and everything points to prosperity and happiness.

One old colored man brought in a small ox cart load and received over \$200 for it, and he was so overjoyed that he thought the warehouseman had made an error in paying him, and wanted him to take back a part of it.

**CHALLENGES ANDY**  
"Mr. Sutherland, of Skibo," Contests Right to Title.

[Special Cable to The Times-Dispatch.] London, October 18.—Andrew Carnegie sued from Scotland last week fondly believing he could claim the title of "Laird of Skibo" without fear of challenge, owing to the recent death of the elderly laird, E. C. Sutherland, who was always addressed "Mr. Sutherland, of Skibo."

But the laird's son has now announced that he is to be addressed as "Mr. Sutherland, of Skibo" and challenged Mr. Carnegie to prove his right. At the same time the young Mr. Sutherland, of Skibo, has begun an action against Carnegie to recover Skibo Castle. The young laird alleges that Carnegie bought the property, which had for years been in the Sutherland family, from the bank with which the late laird did business, and that the transaction was similar to the business ethics of the late "Mr. Mcawber."

**CLOSE UP OFFICE.**  
Austria Says Canadian Pacific Aided Emigrants Out of Country.

Vienna, October 18.—The police to-day closed the office of the Canadian Pacific Railway Company throughout Austria as a sequel to the arrest of Samuel Altman, the company's agent here, in connection with a charge of

assisting Austrians to evade military service by emigrating to Canada without passports.

Alexander Blaudin, manager of the Imperial Touring Agency, which is also an agency of the Canadian Pacific Railway, was arrested this afternoon.

**VINCENT ASTOR INHERITS \$1,500 FROM HIS UNCLE**  
Philadelphia, October 18.—Vincent Astor received a legacy of \$1,500 by the will, written in pencil on a sheet of paper, of his uncle, J. R. Illing, better known as Barton Willing. The estate is valued at about \$100,000.

The will, probated to-day, specified that three-fourths of Willing's estate should be given to his sister, Mrs. Susan R. W. Lawrence, and the remaining one-fourth to his other sister, Mrs. Ava Willing Astor, Vincent Astor's mother.

**\$14,000,000 GIFT A HOAX.**  
Pittsburgh, Pa., October 18.—Henry Clay Frick to-day denied the published reports he had presented to his son, Childs Frick, \$12,000,000 and the young man's bride \$2,000,000 immediately after the wedding in Baltimore last Tuesday.

"The story of my alleged presents of money to my son and his wife," he said, "are so preposterously ridiculous that I feel confident they will fall to the injury to them and to me that the author maliciously designed."

**Philharmonic Orchestra 1913-14**  
First Concert, Oct. 23d, City Auditorium

The first of five concerts—the best ever offered by this organization! Reserved seats at same prices as last year. Two seats to all five concerts \$1.00. Mail \$1.00 bill at our risk to
